

# HOW TO INSTALL ZOOM ON A WINDOWS 10 COMPUTER

1

On a computer, use your internet browser to visit the website [zoom.us/download](https://zoom.us/download)

3

Click **Run** if/when your computer asks for permission to download Zoom.

## Note

You may be required to take action to proceed through the installation process by selecting **Continue** if/when given the option. For some users, you may also require your computer's password to permit the install.

2

Click on the **Download** button under Zoom Client for Meetings.

Zoom Client for Meetings

The web browser client will download automatically when you start or join your first Zoom meeting, and is also available for manual download here.

Download

Version 5.0.0 (23186.0427)

4

The Zoom Installer will display the progress of the download. Once complete, the Zoom application will open automatically.

*Always to try to push the Zoom software forward by selecting options that make the most common sense to move towards launching Zoom successfully.*
