Hello,

I hope you are doing well. I am reaching out regarding where you are at in your volunteer onboarding process/online Tech Tutor training.

How is it coming along? Are you stuck or waiting at a stage in the onboarding process? There may be some situations where I can help you. If you share where you are at in the process, I'd be happy to do so if I can.

Would you please connect with me and let me know if you are still moving through the process or if you've changed your mind about becoming a volunteer Tech Tutor?

I hope to hear from you soon.
